Effective Strategies for Coping With Peer Pressure

In today's world where social vices such as drinking, smoking, joy riding, getting tattoos & piercing, having sex, among others are glamorized, it is very common to find that many young people engage in these nefarious practices. Some of these teens admit they don't like this kind of lifestyle but feel limited, stuck and even forced to participate. Coach Nakumbe discusses the reasons youth give in to peer pressure and offers strategies to overcome it.

**Strategies for overcoming peer pressure/influence*

The Psychology of Abuse for Teens

(Dating Violence)

Domestic violence is a serious problem, and it's not just an adult problem. Teens experience abuse in their relationships, too. In fact, teens and young adults are often the most at risk for domestic violence. It affects many people in many ways and it can happen anywhere and to anyone. Lots of teens do not recognize abuse when it happens or don't know how to tell whether or not a relationship is healthy. Teens will learn ways to recognize abuse early on in a relationship and create strategies to avoid victimization.

**Recognize the traits of an abuser & Identify commitments that cause to stay in unhealthy relationships & skills to break those commitments.*

Bullying In Schools

Bullying leaves an unforgettable mark on both the bully and the victim. Coach Nakumbe educates both to understand the effects of bullying type behavior and how to change it by eliminating negative behavior.

**Strategies for spot signs of bullying and understanding the consequences*

Substance Abuse - ATOD Prevention & Consequences

There is no single cause of adolescent drug problems. There are different pathways to the development of a teen's drug problems. Coach Nakumbe will explore factors that may place teens at risk for developing an on-going drug problem; to include, peer pressure/ influence, media messaging and coping / self-medicating.

**Understand causes, triggers and consequences related to ATOD*
